

DaVinci Toolkit: Your Roadmap, Your Rules, Your Data

With DaVinci Toolkit you shape the future of your contact center platform, control your configuration and securely manage your data to meet your evolving business needs.

A Platform Built from Three Decades of Insight

With almost 30 years of industry exposure and customer projects, DaVinci was built to capture out learnings into contact center solution that focuses on:

Scalability

DaVinci adapts to any combination of CRM, communication channels and business processes, ensuring seamless growth as your needs evolve.

Security

You own and control your data, ensuring it is secure, accessible, and used in ways that benefit your business while maintaining compliance and privacy.

Flexibility

You can customize workflows and integrations to fit your processes while controlling the platform's direction by deciding how and when to scale or add features to meet your evolving business needs.

Pre-Built Integration Apps with Ready-to-Use Capabilities

Backed by Services and the DaVinci Toolkit for Seamless CX

Screen Pop

Automatically pops a customer's account information upon receiving a phone call or activity

CRM Embedded Toolbar with Call Controls

Highly configurable controls which are presented based on the status of the interaction the agent is associated with (hold, transfer, conference, etc.)

Customizable Call Notes

Ability for agent to easily select customized options for call notes for higher efficiency and reporting capabilities

Customizable Wrap-Up/ Read Codes

Map to existing interaction wrap-up codes to toggle readiness status for next customer interaction with easy access to controls

Click-to-Dial

Turn numbers in your CRM into clickable notes
